## OUTLAW STRIKERS TOLD TO RETURN TO WORK AT ONCE

EXECUTIVE COMMITTEE ORDER-  
ING STRIKE SENDS OUT MES-  
SAGES TO THIS EFFECT

(United Press)

Chicago, Sept. 14.—Messages ordering railroad strikers to return to work by midnight were sent out by executive committees of the organization which directed the recent outlaw strike.

J. H. Euband, member of the executive committee, said all men were expected to return to work with the probable exception of New York and New England districts which may have local grievances.

Striking switchmen and other railroad workers flooded back to work here today. About ten thousand men were effected by the calling off of the walk-out, according to figures of the committee. Railroad executives placed the number much lower.

### R. R. Men Returning to Work

Chicago, Sept. 14.—Enginemen, switchmen and yardmen, who have been on an outlaw strike since last March, are returning to work throughout the country today. H. E. Reading, president of the United Enginemen's association, said today. Reading said the Chicago branch of the organization reconsidered their vote on Sunday night unanimously deciding to end the strike. And he said that other organizations would abide by the local organization's act.

## 19 YEAR OLD GIRL HAS MENTALITY OF 3 YEAR OLD BABY

(United Press)

Joliet, Ill., Sept. 14.—Mary Kolwisk, nineteen years old, toyed with a rubber doll while she rested on a hospital bed. The physicians discussed her physical and mental condition freely in the presence of their patient as she could not understand the most simple word. Her whole interest was absorbed in her doll and the clean white clothes.

Mary's physical development approximates that of a four year old child, the physicians found in their examination, and her mental development was even less than an average three year old child.

The girl developed spinal trouble when two years old and was placed in a baby crib in the basement by her mother. She stayed there for seventeen years when she was found by a visiting nurse. The mother was ashamed of the girl's deformity and did not call for medical aid.

The president entered Mexico City for the first time since his election, returning from a campaign in southern Mexico. He laughed when told of the rumors that his life might be endangered. He spoke well of the temporary government of General Huerta.

## CONNECTICUT RATIFIES SUFFRAGE AMENDMENT

BOTH BRANCHES OF LEGISLA-  
TURE ARE PRACTICALLY UNAN-  
IMOUS IN ITS FAVOR

(United Press)

Hartford, Conn., Sept. 14.—The Connecticut legislature this afternoon ratified the federal suffrage amendment.

The vote in the house was 216 to 11 and in the senate 33 to nothing.

Within less than one hour after the house had adopted the resolution the senate took similar action.

Irrespective of the final result of the long fight by ratification of the suffrage amendment by Tennessee, which was the thirty-sixth and necessary state to pass, woman's equal suffrage is assured as a part of the constitution by Connecticut's action.

### All Doubts Removed

Washington, Sept. 14.—Connecticut's ratification of the federal suffrage amendment removed all doubt as to the amendment's validity by carrying it through the court into the house of representatives, according to the opinion of legal authorities here today.

## N. Y. PRIMARIES BEING HELD TODAY

REPUBLICAN CONTEST IS BETWEEN REGULARS AND THE INSURGENTS

(By United Press)

New York, Sept. 14.—Regularity versus insurgency will be the main issue fought out in New York state primaries today with odds apparently in favor of regularity.

Both local and national republican leaders expressed confidence in the nomination of James W. Wadsworth, Jr., to succeed himself as candidate for United States senator over George Henry Payne and Mrs. Ella A. Boole. Nathan L. Miller was favored against the insurgents for the gubernatorial nomination.

On the democratic side the only fight in the state was between Lieut. Gov. Harry C. Walker and Mayor Geo. R. Lunn of Schenectady, insurgent, for the senatorial nomination.

## ELEPHANT GOES ON WARPATH. HAD TO BE KILLED

(By United Press)

Salina, Kan., Sept. 14.—Snyder was buried today amid great rejoicing among the lions, monkeys and other animals here with a circus.

Snyder, a ten thousand dollar elephant, displeased with his new trainer, went on the war path. He tossed the lion cage on top of the monkey wagon and created a general disturbance.

A meal of marshmallows and apples did not pacify the elephant. A firing squad was called into action. The trainers were unable to quiet the other animals for several hours after the elephant was killed.

## MAINE WENT REPUBLICAN BY BIG MAJORITY

LATEST RETURNS SHOW PLURAL-  
ITY OF 70,000—FORECASTS  
HARDING VICTORY

(United Press)

Augusta, Maine, Sept. 14.—Maine went republican in the state election yesterday by the greatest plurality in its history.

Latest returns show that the republican plurality will be nearly 70,000. In 1896 the republican plurality was 48,000.

### Maine Points the Way

New York, Sept. 14.—Will H. Hays, chairman of the republican national committee, commenting last night on the election results in Maine, said:

"Maine has pointed the way. The result gives the greatest reassurance to all well-wishers of good government regardless of past party affiliations.

"The north star of the Union remains undimmed.

"Maine continues American.

"This overwhelming republican victory unmistakably evidences the demoralization of the democratic organization, the repudiation of the administration of their leader, Woodrow Wilson, and the complete condemnation of the campaign conduct of Candidate Cox.

"The women, too, have demonstrated their dependability in this crisis. It means much for the welfare of the republic."

### Sweeping Victory Surprises Republicans.

ED L. KEEN.

(United Press Staff Correspondent.)

New York, Sept. 14.—The sweeping republican victory in Maine was as astounding to republican national leaders as it was to the democrats today.

That the state should go to the republicans by a majority of approximately 20,000 over the former high-water mark in 1896, was unexpected even by the most optimistic party leaders. The most extravagantly predicted forecasts did not go over 40,000.

Although democratic leaders had entertained no hope of democratic success in Maine, they were not looking for a majority of more than 25,000.

Sherman White declined to make any comment until he received further information.

## FUME FORCES CAPTURE ISLANDS

## HARDING DISCUSSES RACIAL QUESTION OF PACIFIC COAST

SAYS THE GOVERNMENT SHOULD  
STAND BEHIND NECESSARY  
LEGISLATION TO SOLVE  
THE QUESTION

RAYMOND CLAPPER,

(United Press Staff Correspondent.)

Marion, Ohio, Sept. 14.—Declaring his belief that the racial question on the Pacific coast is creating a friction that must be recognized, Senator Harding, republican candidate for president, in a speech to a California delegation here today asserted the nation owes it to the Pacific coast to stand behind them in necessary measures consistent with the nation's honor to relieve them of difficulties.

The senator's speech was delivered in response to an address by Governor Stephen of California, who headed the California delegation.

"I do not doubt," said Harding, "that Americans on the coast are troubled in their minds about the oriental question as it is called. That question rises as an interpretation of our watchword 'America first' for it involves four sets of obligations. It involves obligation to great foreign powers; it involves obligation of all Americans toward one group of American citizens and all peoples. But it also involves the obligation of that group of states to the nation."

"There is abundant evidence of danger which lurks in racial differences. I am ready to regard the civilization of the Orient older than ours. Civilization is their pride as well as honorable tradition.

"We have learned during the anxiety of the world war the necessity of making the citizens of this republic not only American in heart and soul but American in their every sympathy and aspiration."

## SINN FEINERS WILL RETALIATE MAYOR'S DEATH

IRISH REPUBLICAN GOVERNMENT  
ISSUES STATEMENT TO  
THAT EFFECT

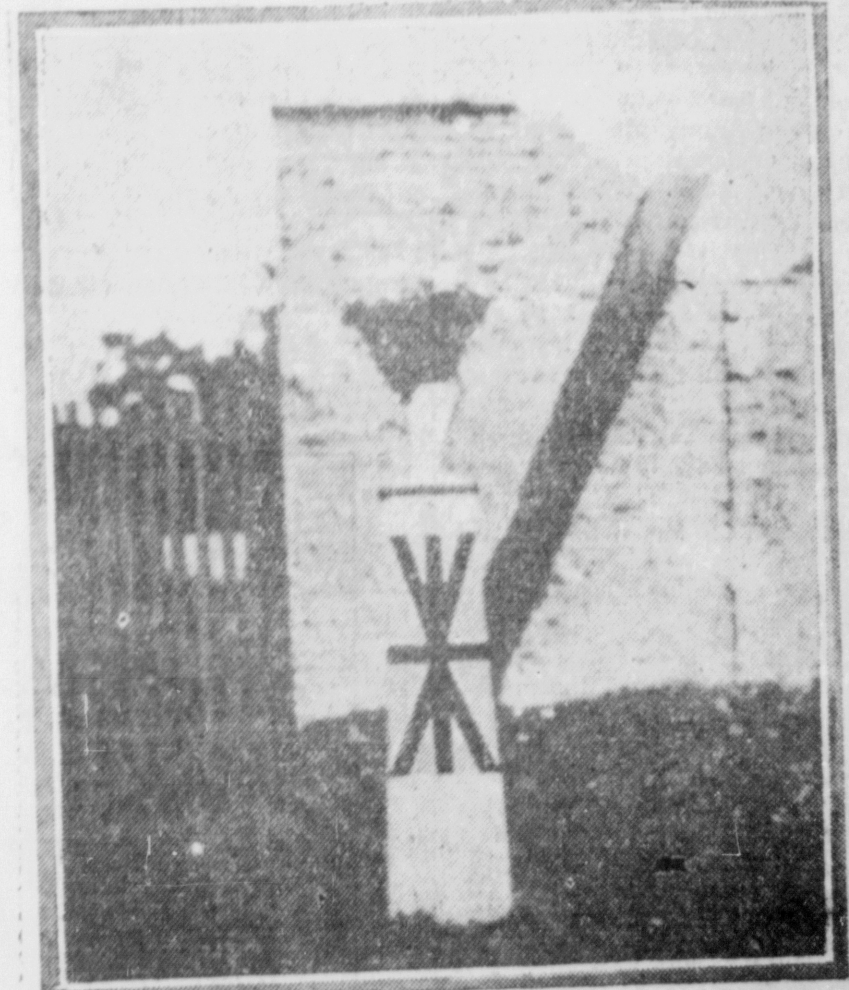

London, Sept. 14.—The Sinn Fein government is preparing to carry out its own reprisal for the expected death of Lord Mayor MacSwiney on a hunger strike in Brixton prison, rather than trust them to individuals, in an order issued by the commissioner in chief of the Irish republican army, who will direct, in the event of the death of MacSwiney, all groups so far as possible to prevent individuals from acting and to oppose organized retaliation groups.

"The republican government believes that Great Britain will welcome an uprising as an opportunity to inflict a death blow to the Irish people. Be assured the republican government will carry out just retaliation. Witness the fate of those concerned in the death of Lord Mayor MacSwiney, who were found guilty by a republican court. None of them are alive."

The latest bulletin on MacSwiney's condition said it was unchanged.

Paris, Sept. 14.—The approaching marriage of Marshal Henri Petain and Madame Hardon, was announced here today. ## COX BELIEVES STUMPING TOUR IS SUCCESSFUL

FRIENDS THINK HE WILL CARRY  
MONTANA AND STATE OF  
WASHINGTON

HERBERT WALKER

(United Press Staff Correspondent.)

Enroute with Governor Cox, Huntington, Ore., Sept. 14.—Governor J. M. Cox today was completing his stump tour of the northwest confident that during the last week of his tour he has made a big inroad on the republican strongholds.

"The result is already felt at Marion," he said today. "I expect an announcement any time that Senator Harding is to follow in my footsteps."

Information on Cox's train was that from nearly every large city in which he has spoken an appeal has come out to republican headquarters for a complete abandonment of Harding's front porch campaign.

Those close to the democratic nominee are confident he will carry Montana and Washington. They claim Oregon is doubtful, although it has been considered a republican stronghold of the northwest. The state of North Dakota is uncertain because of the nonpartisan nature.

## DUCK SEASON OPENS SEPT. 16

## Native Ducks Plentiful is Report From Many Parts of the State

Next Thursday morning, Sept. 16, a half hour before sunrise, the Minnesota duck hunter comes into his own, with the opening of the hunting season. Wild duck with the exception of wood duck, may be taken to the number of 15 daily, and there is every indication that early season hunters will return with full bags.

Reports from all section of the state are to the effect that native ducks are more numerous this year than in several seasons previous. Virtually every slough and lake in the state holds its quota of game birds, many to be found near cities and villages.

Mallards and teal are said to be especially plentiful and jump shooting in the majority of locations will be the order of the day. Reports received by the state game and fish commission are to the effect that the birds are tame and will not begin flying high until after the first or second day of shooting.

The Rainy River country has produced thousands of ducks this season, according to reports of rangers, many of varieties which usually go farther north to nest, and good shooting of birds usually not encountered until the "northern flight" begins, is assured in that section.

The western section of the state has developed many mallards this year and teal are to be found everywhere.

## PLAYING WITH TOO MUCH ARDOR

Second Accident Recorded at Lincoln School Playgrounds on Tuesday Morning

## MARVIN TURNER UNCONSCIOUS

Taken to Hospital—Was Doing a Circus Act—Bernard Samuelson Broke Arm Monday

Pupils at the Lincoln grade school seem to evidence too much enthusiasm and spirit in their play hours at the playgrounds.

On Monday young Bernard Samuelson fell off a seesaw and broke his right arm. With his arm in splints he has resumed school work.

On Tuesday morning Marvin Turner, age 14, fell off a board poised on two swings. The circus act proved too much for young Turner who was knocked unconscious by a flying swing and taken to a hospital.

The accidents have not dimmed the athletic fervor at the grounds and the kids were wondering who would be the next on the roll of wounded.

### "THE GUMPS" A GOOD SHOW

One of the Best Musical Comedies in the Series Founded on Cartoon Characters

Better than "Mutt & Jeff", "Mr. Jiggs" and other plays founded on cartoon characters, "The Gumps" stands in a class by itself.

James R. Fraser as Andy Gump filled the shoes of Sidney Smith's classic character so well that he seemed to have stepped right out of the Sunday magazine section. Andy got the sympathy of all the married men in the large audience, for he certainly was in a lot of marital trouble and difficulties, the most serious being when he leaped into the sea and notwithstanding he was a poor dub of a swimmer, saved an unknown woman who turned out to be his mother-in-law.

Fraser played the part so well that all agreed he must be a married man of considerable experience. The delicate way in which Andy flattered his wife and managed to get a hundred dollars out of her pocketbook was equal in diplomacy to the best ever pulled off in European chancelleries.

In eccentric dancing Fraser and Rose Jansen as "Min" were excellent. Pretty dancing was also contributed by golden-curl Edna Northlane as

"Betty, the Peach", and Jack Ward as "Toby Lyons."

Singing and dancing of the chorus, costumes and scenery of the show was up to a high standard.

In the League of Nations scene each girl representing a country, the singer with the "Harding" banner gained a lot more applause than did her "Cox" sister.

### Electrical Rules Drawn Up

Bismarck, N. D., Sept. 14.—Companies affected will appear before the state railroad commissioner today to present their views on rules drawn up last month by the board governing construction and operation of all

The rules originally were drawn up by a committee of experts, and underwent some changes in the hands of the board. Laws empowering the board to draw up such rules were passed at the 1919 session of the state legislature which states the purpose to be "avoiding or mitigating interference from electrical supply lines" and "minimizing the hazard of injury to persons or property by reason of the close proximity of electrical supply lines to or with signal lines."

## WHY HOMES ARE SCARCE

Perhaps the most constructive contribution yet made to discussions for the national housing problem was given the other day in an interview by Samuel Untermyer, the distinguished New York lawyer.

It is generally recognized that the chief reasons why new construction has lagged so lamentably are the high cost of building materials and the lack of money to finance building operations.

As for the first, Mr. Untermyer charges specifically, as the result of personal investigations, that there has been a deliberate conspiracy to keep prices of brick, cement, lumber, etc., up to extortionate levels. He is so sure of this that he offers, himself, to take charge of prosecutions, as a gratuitous public service, provided he is equipped with adequate legal power by the federal and local authorities. He has no doubt, he says, that the ring-leaders could be sent to jail in three months.

If such action were taken, he declares, "within a reasonable time a reduction of 40 per cent from the present extortionate profits could be forced between the manufacturers and jobbers, principally from the manufacturers, and even then they would have a larger margin of profit than in 1912."

He gives a simple explanation of

the other obstacle that has puzzled so many people. The reason why it is hard to borrow money for building homes, he says, is this: Banks, insurance companies and other institutions that hold the people's money in trust, instead of investing it in real estate mortgages, have been putting billions into speculative securities. Instead of financing Wall Street gambling, they should have taken the money entrusted to them and put it into loans on improved real estate, the safest and most dependable form of investment, and at this time the most necessary.

He would guard against any such folly hereafter by requiring such institutions to invest at least two-thirds of their funds in real estate mortgages.

Coming from a "corporation lawyer" of unquestioned ability and integrity, these suggestions deserve serious consideration by the government and public.

## HEALTH HABITS FOR CHILDREN

The public school is to be used this year as never before to spread the doctrine of good health—how to get and keep it. The campaign is to be pushed as vigorously in the rural districts as in town.

One state has already organized all its counties for co-operation in this work. Education in hygiene is to be carried to every rural district. County medical officials and visiting nurses will make regular tours of inspection to each school, however remote. The teachers will aid, using drills, charts and games to interest and instruct the children, and they will be encouraged to care for their bodies as regularly as they perform their farm and school tasks.

The care of the body, upon which the health depends, is a matter of education and habit. To give the children of the nation this education, and inculcate in them the corresponding habits, is a work in which school and health authorities, teachers and parents should embark with rare enthusiasm.

A pitched battle took place on the streets of Coney Island the other day. Eleven prisoners were taken by the police and \$100,000 worth of booze was confiscated. Ireland isn't the only country that can boast of street riots.

Ohio republicans have chosen a man named Dave R. Jones as their executive secretary. And what if he puts those famous contributions into his locker?

A Danish shoe manufacturer who has been visiting in this country says he can see no reason for the high price of our shoes. He hasn't got a thing on us—neither can we.

The Reds are said to be seeking a German link. This is the worst yet.

## "THE PENALTY"

Lon Chaney in Remarkable Film Version of Gouverneur Morris Story Electrifies Audience

Brainerd Friday and Sunday witnessed the premier performance of "The Penalty" starring Lon Chaney in the film version of Gouverneur Morris' story.

It is a gripping tale, one which like "The Miracle," holds you to the end. It personifies the innermost thoughts and workings of the brain of a person crippled because of the hideous mistake of a surgeon and what makes the mind misery more intense and turns the whole life current of the child is the fact that he overhears the conversation wherein the one who later became a master surgeon admitted his mistake in amputating to the older practitioner.

In the street accident, which was followed by amputation of his limbs, the child also sustained a contusion of the head affecting the brain.

Chaney has invested the character of "Blizzard," leader of the underworld, with cruel cunning, autocratic leadership, remarkable initiative.

Chaney played the part of "The Frog" in "The Miracle," where he unjoined himself into fantastic shapes. In the role of "Blizzard," Chaney twists his limbs until he appears like a cripple stumbling about on his knees.

Like "The Miracle," "The Penalty" serves as a medium for soul study and shows to what lengths a vindictive personality may drive a man. In the end an operation on the base of "Blizzard's" skull restores him to right mental channels, but the "gang" fearful of exposure, murders him and "Blizzard" pays the penalty of having been enmeshed in sin.

# KINDRED STREET PAVING OPENED

New Cement Paving Formally Dedicated Monday Evening by Immense Parade Held

## RED LIGHT ILLUMINATES STREET

Brainerd Municipal Band Heads Two Mile Parade, Mayor Little Speaks, Dance Given on Paving

Monday evening, Sept. 13, was a gala occasion in the history of Brainerd when a municipal celebration marked the opening of the new cement paving of Kindred street.

This section of Brainerd, which in the old days had as many bumps and craters as any sector of the Yankee front in France, through Brainerd co-operation and spirit has been changed to high class cement paving.

**Parade Imposing**  
Kindred Street was still in barriers when scores of automobiles and trucks assembled for the parade. The Northeast Brainerd Improvement League, sponsors for the celebration, lined up the cars on First, Second and Third Avenues, heading south.

At a given signal red fire burst out along Kindred street, forming the lane through which the parade was to pass.

Mayor F. E. Little, City Engineer R. A. Campbell, Aldermen Rasch and Strickler with other members of the Northeast Brainerd Improvement Association lifted the barriers from the street and the parade started.

First came the Brainerd Municipal band in trucks. They played everything in their extensive repertoire from "The Star Spangled Banner" to "Hail, Hail the Gang's All Here".

**Two Miles Long**  
Automobiles and trucks, many most beautifully decorated, running slowly, followed in close order and the parade covered all cement streets in town. It took the parade half an hour to pass a given point.

It made a wonderful scene to see the lights of the cars in solid formation. Crowds were out to see the parade.

**Mayor Little Speaks**  
Returning to Kindred street, the cars deployed and Mayor F. E. Little delivered a characteristic speech, short, snappy and to the point, in which he thanked Northeast Brainerd citizens for their hearty goodwill and spirit in making the great improvement possible, marking a new era in city progress and achievement. Good streets are a prime and most necessary essential in any community and improvements like this heralded to the world that Brainerd had a system of improvements under way and continued would soon give the city the reputation of having the best paving of any city in the state.

The mayor referred to the importance of Kindred street as an artery of travel in connecting Northeast Brainerd with the rest of the city. As such it should be maintained and not under any condition made a speedway.

Frequent applause marked the various good points brought out in his speech.

**Dancing on Paving**  
At a signal the Brainerd Municipal band started its program of dance music and soon scores of feet danced on the paving. So far as known it was the best dance on paving ever given in the history of the city and the novelty was appreciated by all.

**All Are Thanked**  
Secretary Hugo A. Kaatz made the following short statement:

"The Northeast Brainerd Improvement League extend their thanks to all who participated in making the celebration such an enjoyable affair. Especially to Mayor Little and the members of the City band, as their part in the program was greatly appreciated."

## ONE LANDED IN HORSE SHOE FINALS

L. O. Kelsven in Group Six Made Good Scores Against Three Opponents at State Fair

## THE TOURNAMENT DREW MANY

Cook, Team Mate of Kelsven, Was Unused to the Lighter Shoe Used in the Contest

Leonard O. Kelsven and Fred C. Cook, accompanied by their wives, motored down to Minneapolis on Wednesday of last week, to attend the fair and contest for the prize in the horse shoe pitchers state tournament. Kelsven was entered in Group 6 and pitched against E. B. Steindorf of Stillwater, J. W. Snyder of St. Paul and Judge P. W. Morrison of Norwood. He outpitched all three of his contestants by a score of 50-47, 51-22 and 51-48 respectively, which gave him the right to compete with six others in the finals.

Steindorf who was Kelsven's closest contestant, protested the count but was over-ruled by the judges and referees. Kelsven however volunteered to pitch a deciding round and lost to Steindorf. Too bad! That's what a fellow gets sometimes for being decent.

Fred Cook was unfortunate in having to pitch with strange shoes, lighter in weight and different in shape from those used here and in consequence, though he made a good showing, did not get enough scores to entitle him to pitch in the finals.

## SOLVING FARM LABOR PROBLEM

Demonstration to be Given Friday, Sept. 24, at the Britton Farm 1-1/2 Miles East of City

## AUSPICES WOODHEAD MOTOR CO.

Hundreds of Farmers, Bankers, Dealers, Mechanics Expected to Attend Farm Show

The Woodhead Motor Company has received a carload of machinery to be used at the Fordson tractor demonstration to be held Friday, September 24, at the Britton farm on the Oak street road a mile and a half east of Brainerd.

Twelve tractors will be in use and it is estimated that over 500 out of town bankers, dealers and mechanics, including hundreds of farmers, will attend the demonstration.

This will be the largest power farming demonstration ever held in this part of the state.

The entire exhibit of the Schmelz Implement Co., shown at the Minnesota State Fair, will be shipped to Brainerd for the demonstration. A staff of competent men will instruct people in the use of implements. This is not a sales demonstration but an educational one, and its purpose is to better acquaint the farmer, dealer and mechanic with the Fordson and power farming.

A free lunch will be served on the grounds and the contract for the same has been let to William J. Garvey. The contract for the evening banquet was let to the Ransford hotel.

## Constipation Causes Serious Ills

If you are its victim, try strengthening your digestive and eliminative organs with Nature's Remedy—it's better than laxatives.

### NR Today—Keeps the Doctor Away

One of the world's greatest scientists says that more than 90% of all human ills can be traced directly or indirectly to constipation. How many sufferers realize this?

Most of them continually dose themselves with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. To do that is a mistake. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that constant dosing will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out.

And NR does this without a sign of griping, pain or unpleasantness. It works gently, but promptly and thoroughly. In a few days you notice the real result. You begin to feel that you are living again, with new strength, new energy, vim and pep and ginger. You soon find your bowels acting regularly without help. Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is so guaranteed and recommended by your druggist.

Columbus, Ohio, Sept. 14.—Denying the story that Governor Cox is under obligation to reappoint Attorney General Palmer if elected president because of the latter's withdrawal in the contest in the democratic convention, Chas. E. Morris, secretary to the governor, writing in the New Republic, asserted Governor Cox will not reappoint Palmer, and that in any event Palmer would not accept the appointment.

Discussing other policies of the governor and making clear he is writing on his own responsibility and without knowledge of the governor, Morris declared Cox as president will not be stumped into war by any propaganda, no matter how strong or what source.

## We Never Shut Down

Live stock keeps coming to market and we have to keep buying it and putting it through our plants whether conditions are good or poor.

Swift & Company has no control over the quantity of live stock shipped to market. Live-stock producers ship their animals to the big stock-yards markets, wherethey are sold through commission men who represent the shippers.

The result is that the live-stock supply fluctuates from week to week. We have to buy the animals, however many or few there are; and they have to be handled without delay.

We cannot hold dressed beef, lamb, mutton, veal, fresh pork, or any other fresh perishable meats, but have to sell them at the prevailing market prices within a few days. If we try to sell at half a cent under the prevailing prices, retailers would naturally buy from us as long as our supply lasted, and that supply would be used up very quickly. On the other hand, if we try to sell for half a cent higher than the market prices, the retailers, who shop around, would buy from our competitors and we would have our fresh meat left on our hands. We have to sell our products every day at prevailing market prices whatever those prices may be.

Half a cent up or down in the wholesale price means the difference between profit and loss to us.
